

Discussed by GPC on 2-28-05. Approved by GPC 10-24-05. Approved by Faculty Senate 11-16-05.

Joint Degree Programs-

Approved motion reads:

**It is recommended that each joint degree program require a minimum combined total of 60 credit hours and a minimum of 24 credit hours in each of the two disciplines. It is required further that at least six of the actual hours taken in each of the component degree programs be designated as required and appropriate to the other degree program. These cross-credit hours are the essence of the joint nature of the combined program. It is further recommended that this policy should be implemented for new students beginning fall 2006.**

See attached proposal and minutes for full discussion.
