Approval of Dissertations-

There was discussion on the majority vote of supervisory committees for the approval of dissertations.

Approved recommendations:

- 1. Dissertation approval must be unanimous.**
- 2. If a majority of the committee disapprove, the student must rewrite until all approve- or give up.**
- 3. If there is an impasse, but a majority approve the dissertation, the Dean of Graduate Studies will replace the dissenting member (s) of the committee.**
- 4. Procedures then recycle to item 1. If a second impasse develops, the dissertation is disapproved.**

See minutes for full discussion.
